

ENGL 3340-001 Fall 2013

Brief scholarship presentation (5% of the final course grade):

Bring to class and submit a bibliographical citation for the scholarly paper that you have read for your assigned presentation. The scholarly paper may be an article, a chapter from an academic book, a dissertation or thesis chapter, or some other standard form of academic writing. It must have been published in the 21st century.

Present the issues in the scholarly paper to the class in a presentation of no less than eight and no more than ten minutes. Try to relate the paper to the week's reading, to class discussion, to other papers you've heard presented, and to American literary history in general.
