6 - Which attributes of the course and/or the professor helped you learn the material? (When the course is next taught, what should be done in the same way?)

Response Rate 8/18 (44.44%)

- The discussion and questions asked in class helped further instill the knowledge we gained from the readings and provided new perspectives that applied to the articles and poems that we read, analyzed, and eventually memorized.
- NA
- keep everything the same
- By adding articles and later reflecting and talking about it class helped me to learn the material. I also appreciate that we were given enough time to memorize the poems before each test. Free will on choosing some of the poems If this class is thought again I will appreciate the note cards check for discussion purposes since it seems to open conversation among students
- Dr. Morris was always prepared for class, and made sure we all knew about upcoming events within the course. He is also very kind.
- The daily lesson grades
- Provided interesting and informative readings that helped facilitate in class discussion very well. Though more of a relaxed atmosphere learning with peers was prioritized in a beneficial way.
- He's funny, but not in your face about it. Just very calm and very witty, makes the material much easier to grasp with the relaxed atmosphere

7 - Which attributes of the course and/or the professor did not help you learn the material? (When the course is next taught, what might be revised?)

Response Rate 6/18 (33.33%)

- NA
- keep everything the same
- I will just recommend to add an activity where students get to create one poem for fun in one of the tests
- N/A
- N/A
- Some of the assigned reading is randomly and plainly longer than others without a heads up, so a few times it felt like I hadn't set aside enough time to read them.
